

COMMUNITY PARTICIPATION, NEIGHBORHOOD PLANNING, AND FOOD

**Room 369, Civic Square Building, Bloustein School
Mondays 1:10-3:50**

Course Overview and Objectives

This course is designed to introduce students to democratic processes and neighborhood planning with food security. Food has increasingly come into focus as a critical and often overlooked area of planning. While in the past we may have ensured that people have enough food, we now think about the quality of calories, the connection between food and health, the way in which we produce, procure, and dispose of food, the impact of food production and distribution on the environment, and the potential to use food to fuel economic development.

Class sessions will be devoted to learning about food systems, food security, and food planning. We will complement the literature with guest speakers and field visits.

Your preparation and participation are essential for a productive and successful class. Please read all assigned materials and participate thoughtfully and enthusiastically. During the course of the term, you will identify a community development organization that works on food and do a small project or write a small paper that will assist that organization. The idea is to have you learn about innovative ways that cities and organizations are seeking to improve food security today. This gives you hands-on experience with the people who are engaging in food systems work and provides some help for them in return. You'll present the project at the end of the term sharing what you've learned with your colleagues.

Kathe Newman
Associate Professor
knewman@rci.rutgers.edu
CSQ 358
Office Hours:
Wed 1:30-4:30

Caitlin Salemi
Teaching Assistant
caitlinsalemi@gmail.com
Office Hours: 10:30-12:30
EJB Room 371

Bloustein School of
Planning and Public Policy
Rutgers University

Course Material

Course reading, viewing, and listening materials are available on the Sakai course website and on the Internet.

*Masters students read the material with one asterisk. **Doctoral students may elect to read any or all of the material assigned for masters students and select at least one recommended item

Grading

Attendance, Participation & Veggie Points 20%

To get full credit for participation, attend class & tours, read, engage thoughtfully and come prepared. If you miss class, download the presentation slides from Sakai and ask a colleague for notes. Please turn off digital devices prior to entering class to ensure that nothing on your person hums, vibrates, rings, or tweets.

Veggie Points

You can enhance your in-class experience and earn vegetable points (formerly known as brownie points) by participating in the events highlighted with the green background. You can also organize a food film club. You can find many food-related film ideas on Professor Philip H. Howard's website at Michigan State University here: <https://www.msu.edu/~howardp/booksfilms.html> (many thanks to Professor Howard).

Reflection Papers 30%

Submit 4 two-page 1.5 spaced reflection papers on Sakai. The reflection papers present an opportunity for you to think critically about what you learn in the classroom, from speakers and on tours and from the readings. A well written reflection paper will do more than describe the literature. Think about a theme to unite your reflection paper. What key issues and themes were discussed? How do you link the real world experience with the course materials? Keep quotes to a minimum or don't use them at all. Post your paper to Sakai after a class session but before class the following week. (i.e., you have readings assigned for one week, listen to a guest presentation and go on a tour. Your reflection paper is due on Sakai for that experience before class the following week). We won't accept late reflections.

Organizational Experience and Presentation 50%

Do a small-scale food project in partnership with a community organization or local government. The idea is for you to learn about food planning while also providing some assistance to a community organization or local government. You might:

- engage in research on innovative strategies for hosting community gardens
- create a map of grocery stores
- explore the potential to do urban agriculture
- attend meetings for an organization to extend their reach to learn about new food opportunities

Constraints

- While we would like you to be ambitious and creative, remember you only have one semester. A really well done small project is much better than an uncompleted wildly ambitious project.
- Because of the time constraints in the semester, we won't be able to do any research that involves human subjects. For example, if the organization would like you to survey neighborhood residents, I think it would be next-to-impossible to get through the IRB process in time to make this a doable project within a semester.

Getting Started

- Contact an organization or municipality that is working on food security
- Ask them what would be useful for their work
- Develop a one page proposal
- Create a timeline (with intermediate production reports based on the timeline below)
- Get project approval from organization and instructors
- Conduct research
- Produce project (report or could be some other output depending on the type of project you develop. You might produce a video, build a website, attend meetings etc... You will need to write a two-page summary of your project if you do something other than produce a paper/report).
- Submit project to organization and instructors
- Present project to class

Due	Assignment
January 31	<ul style="list-style-type: none"> • Add 4 organizations to Sakai
February 7	<ul style="list-style-type: none"> • Identify organization
February 14	<ul style="list-style-type: none"> • Contact organization
February 28	<ul style="list-style-type: none"> • Develop one page proposal with timeline
February 28 - March	<ul style="list-style-type: none"> • Conduct research work
End of March	<ul style="list-style-type: none"> • Write draft report
April 4	<ul style="list-style-type: none"> • Submit draft on Sakai for feedback (voluntary)
April 25	<ul style="list-style-type: none"> • Final report due
April 25 or May 2	<ul style="list-style-type: none"> • Final presentations

Academic Integrity

Please review the University's Academic Integrity Policy here <http://academicintegrity.rutgers.edu/integrity.shtml>. Please do not use someone else's intellectual property without proper attribution. If you have any questions about citing material, refer to an academic citation and style guide, ask us, another faculty member, or a research librarian at one of the University's libraries.

Course Schedule

January 24. Introduction

3:00-3:30 Skype Discussion with students at St. Philips Academy, Newark about EcoSPACE <http://web2.stphilipsacademy.org/>

*EcoSPACES <http://www.youtube.com/watch?v=UY3sx-LKr6E>

*AeroFarms and EcoVeggies [http://aerofarms.com/2010/09/newark-school-justifies-new-jersey's-title-as-'the-garden-state'/'](http://aerofarms.com/2010/09/newark-school-justifies-new-jersey's-title-as-'the-garden-state'/)

*Woody, Todd. 2010. "A Crop Sprouts Without Soil or Sunshine." New York Times. September 20. <http://green.blogs.nytimes.com/2010/09/20/a-crop-sprouts-without-soil-or-sunshine/>

*Freidberg, Susanne. 2009. *Fresh*. Cambridge: Harvard University Press. Chapter 1. Refrigeration.

January 31. Foundations - Democratic Participation and Neighborhood Planning

2:10-3:50 Michael Powell, NJCDC Workshop on Neighborhood Planning

*Slocum, Rachel, Wichhart, Lori, Rocheleau, Dianne, and Thomas-Slayter, Barbara. 1995. "Power, Process and Participation: Tools for Change." <http://140.232.1.5/~rslocum/>

*Rohe, William. 2009. "From Local to Global: 100 Years of Neighborhood Planning." *JAPA* 75 2:209-230.

*Allen, Patricia. 2010. "Realizing Justice in Local Food Systems." *Cambridge Journal of Regions, Economy and Society*. 3: 295-308.

*Peterman, William. 2000. *Neighborhood Planning and Community Based Development*. Sage. Chapter 2.

February 7. Food Systems

2:45-3:45 Presentation: Alison Hastings, Delaware Valley Regional Planning Commission (DVRPC)

- 2010. Greater Philadelphia Food System Study. <http://www.dvrpc.org/Food/FoodSystemStudy.htm>

*Slocum, Rachel. 2010. "Race in the Study of Food." *Progress in Human Geography*. Online first, August 26

*McWilliams, James. 2009. Chapter 1. "Food Miles or Friendly Miles" in *Just Food*. New York: Back Bay Books.

*Pothukuchi, Kameshwari and Kaufman, Jerome. 2000. "The Food System: A Stranger to the Planning Field. Urban Agriculture Notes." *JAPA* 66 2. accessible at *Urban Agriculture News* here: <http://www.cityfarmer.org/foodplan.html>
